ORGANIZATIONAL BACKGROUND

THE MISSION STATEMENT

The mission statement of an organization is intended to describe, in succinct terms, the purpose for the organization's existence. It articulates the principal reason for the organization's presence within the response community.

The OVFA, through a consensus process, developed the mission statement below.

OVFA Mission Statement

Promote Oregon volunteer emergency responders through education, training, and advocacy

THE VISION STATEMENTS

In addition to knowing who they are and understanding their beliefs, all successful organizations need to define where they expect to be in the future. After having established the organization's mission, the next logical step is to establish a vision of what OVFA should be in the future. Vision statements provide targets of excellence that the organization will strive towards and provide a basis for their goals and objectives. The following vision statements were developed for the OVFA.

OVFA Vision Statements

The Oregon Volunteer Firefighters Association will be:

- **Recognized as an organization able to anticipate change and promote innovation**
- **The premier source of education and training for volunteer emergency responders**
- **The leading local, state, and national advocate for volunteer emergency responders**
- **The leading resource for volunteer recruitment and retention assistance**

VALUES

Establishing values embraced by all members of an organization is extremely important. They recognize those features and considerations that make up the personality of the organization. Those assembled for the OVFA strategic planning process felt it absolutely necessary to declare the following statement of values for the organization.

OVFA Values

WE ARE COMMITTED TO:

Accountability

We value transparency and accountability with our members' resources.

Social and Professional Networking

We value the camaraderie of the organization.

Communication

We value open and honest two-way communication with our members.

Ethics

We value practicing the highest standards of ethical behavior by the organization and its members.

STRATEGIC INITIATIVES AND OBJECTIVES

In order to achieve the mission and vision of the OVFA, realistic strategic initiatives and objectives must be established. Strategic initiatives (a clear statement of desired outcome) and objectives (specific activities and projects that contribute to achievement of the initiative) are necessary to provide the individual members with clear direction.

The strategic planning team set priorities for the accomplishment of specific objectives. Those that carried higher priorities are scheduled for completion first and lower priority objectives scheduled later. Overall these strategic initiatives and objectives provide very specific timelines for the next several years and more general timelines beyond that.

The leadership of OVFA will meet periodically to review progress towards these strategic initiatives and objectives and adjust timelines and specific targets as needs and the environment change.

APPENDIX

The OVFA completed an assessment of current condition through the identification of organizational strengths, weaknesses, opportunities and threats. These are reprinted here to give context to the reader and to provide an opportunity for future review to determine how these may change over time as a result of organizational efforts.

STRENGTHS

It is important for any organization to identify their strengths in order to assure they are capable of providing the services requested by customers and to ensure that strengths are consistent with the issues facing the organization. Often, identification of organizational strengths leads to the channeling of efforts toward primary community needs that match those strengths. Through a consensus process, the strengths of OVFA were identified.

Strengths of OVFA

- Membership has a strong belief in volunteerism
- Quality training opportunities for our members
- A strong voice in legislative advocacy
- A high level of camaraderie amongst our members
- Volunteers have a strong commitment to loyalty
- We maintain strong professionalism/relationships with other emergency service organizations
- Nationally, volunteers save taxpayers 37 billion dollars per year
- Have Oregon representative on the National Volunteer Fire Council Executive Board

WEAKNESSES

Performance or lack of performance within an organization depends greatly on the identification of weaknesses and how they are confronted. For any organization to either begin or to continue to move progressively forward, it must not only be able to identify its strengths, but also those areas where it does not function well or not at all.

Weaknesses of OVFA

- Poor communication with our members and decision makers
- We don't convey to our members what we do
- Lack of long-term consistency of vision
- The lack of fiscal responsibility
- Disconnect with membership on issues such as delivering the type of training needed
We are not delivering what they request or want
- We spend more than we bring in
- We are not doing a good job using the programs we have available to generate face-to-face contact with members
- No long term financial plan
- Our message to legislators is not as effective as it could be
- Relationship with other associations is not as effective as needed particularly with OFCA

OPPORTUNITIES

Many things exist as unrealized opportunities for the organization. The focus of opportunities is not solely on existing service, but on expanding and developing new possibilities both inside and beyond the traditional service area. Many opportunities exist for OFVA.

Opportunities for OVFA

- Develop a stable financial condition that supports the delivery of services
- Ability to expand our membership base
- Refocus the types of training we provide
- Develop partnerships with other entities
- Become a more recognized advocate for volunteers in state and national legislation
- Use modern technology to reach volunteers
- Inform members and volunteer associations of available resources and benefits (HEART ACT)

THREATS

There are conditions in the internal and external environment that are not under the organization's control. However, by being aware of them, the organization can develop plans and programs to either mitigate or respond when a threat becomes reality. By recognizing possible threats, an organization can greatly reduce the potential for loss.

Threats to OVFA

- Time constraints and load demand thrust upon volunteers (state and federal mandates)
- Lack of leadership succession to run the organization
- External economic factors that impact financial stability
- Legislators distracted by issues other than ours
- Changes in state and national regulations and laws
- Membership losing confidence in board leadership
